

HIGH SCHOOL STUDENTS LEARN HOW TO BUILD A STARTUP

Join the **Partnership2Gether Western Galilee Overseas Startup Program** (now in its fourth year) to experience teamwork with local and Israeli peers, to learn from Israeli mentors and develop your cross-disciplinary creativity. This opportunity allows you to challenge the obvious and make the world a better place.

HOW IT WORKS

- Join your local community startup group and connect with like-minded Israeli peers
- Work together with your local and Israeli teams to develop an innovative product by using your programming, software and engineering knowledge
- Teams from Israel and the US will meet online every two weeks and receive guidance from an Israeli mentors
- Mentors include three high caliber engineers from [Rafael Advanced Defense Systems Ltd. \(rafael.co.il\)](http://rafael.co.il) the company that developed the 'Iron Dome' which continues to save hundreds of lives in Israel
- The program curriculum is developed by the well known [Unistream Educational Company/Life Changing Entrepreneurship \(unistream.co.il\)](http://unistream.co.il)
- The Israeli and U.S teams will develop a unique product and submit it to the **Unistream Young Innovator Competition** held annually in Israel—this competition is a celebration where young innovators share their ideas related to science, technology, engineering and math
- As part of the competition, representatives from the overseas group will be invited to Israel
