

PARTNERSHIP2GETHER COMMUNITY ENGAGEMENT COMMITTEE PRESENTS:

# Western Galilee Visionary, Yuval Hargil

## Available March 14-24, 2019

**THE ART OF DISTILLATION**—The first Israeli artisanal distiller, recreating the scent that drove the men of ancient Jerusalem wild.

### LEARN FROM A UNIQUE ISRAELI VISIONARY

This delegation of a cutting-edge expert from the Western Galilee offer his time to share information through lectures, workshops and informal/formal meetings.

### THE ART OF DISTILLATION

“...because a good distillation is like a good poem—a refined work which encapsulates a moment, an evasive mood, which one must seize at the right time, for it not to be lost forever.”

When Yuval Hargil came back to his home town in the Western Galilee and co-founded the Julius Distillery in 2008, he had only one dream: to produce the finest quality spirits in Israel, using craft distilling methods, with locally grown ingredients only.

Together with his partner, Yuval was the first in Israel to refine spirits from a variety of local fruits like citron (etrog), clementine, arbutus, figs, apple, peach, and plum and from different varieties of grape. Moreover, they were pioneers in distilling honey, gin and concocting a bitter digestive based on local herbs.

Their vision is to produce only spirits that they love to drink themselves. Pure beverages, without additives or any shortcuts. Alcohol that is produced in harmony with the environment that they live in.

Located in Kibbutz Hanita on the border of Lebanon, their two-tone copper vat is activated by solar energy and its refrigerating and condensation system is four times more efficient than the old fashioned refining systems.

### COSTS

Each hosting community is responsible for housing, meals and ground costs during the delegation visit.
